---

Dedicated DevOps Engineer with 3.1 years of experience in designing, deploying, and managing cloud infrastructure. Proficient in AWS services, CI/CD pipelines, Infrastructure as Code (IaC), and container orchestration tools. Strong background in implementing scalable, secure, and cost-efficient cloud solutions with a focus on automation and operational efficiency.

Key Skills

Cloud Platform: AWS (EC2,S3,RDS, Lambda)
IaC Tools: Terraform ,AWS Cloud Formation
DevOps Tools: Docker, Kubernetes, CI/CD(Jenkins) ,Git
Programming Languages: Python , golang, Bash/Shell
Monitoring & Logging:AWS Cloudwatch , VPC, IAM,
Networking & Security: Subnets, Loadbalancers, IAM
Other : Networking , Linux
Soft Skills: Quick learner, effective collaborator,strong communication.

PROFESSIONAL EXPERIENCE

Capgemini India Limited   2023–Present
Senior Software Engineer | June2023-present

June2023–Present

- Designed and deployed scalable AWS infrastructure using **EC2**, **S3**, and **RDS** to support high-availability applications.
- Automated resource provisioning with **Terraform** and **AWS CloudFormation**, improving deployment efficiency .
- Managing and optimizing CI/CD pipelines using Jenkins and GitLab CI for faster and more reliable software releases.
- Enhanced application reliability through **Docker** containerization and **Kubernetes** orchestration.

2021– 2023

Software Engineer | Nov2021–June2023
- Developed and implemented cloud-native solutions using **AWS** services for application development.
- Streamlined software delivery with CI/CD pipelines and automated repetitive tasks using scripts.
- Containerized and deployed applications with **Docker** and managed scaling with **Kubernetes**.
- Improved system monitoring and security practices using **AWS CloudWatch**, **VPC**, and **IAM**.

EDUCATION

Sinhagad Institute of Technology and Science | Pune University   2021
Bachelor of Engineering in Information Technology

Certifications :

- **AWS Certified Solutions Architect–Associate**
  validation number- ac36e3b229c74eacb372832259fa2fed / Validate
- Agile Software Development Certification

Languages Spoken–English, Hindi, Marathi
